

fest of the year, creating a platform for students to learn about the integration of technology and encourage collaboration. The theme of the Tech Biennale contrasts the universal elements Air, Water, Fire, Sky and Earth, which symbolise movement, expansion, energy flow, fertility, change, fervour, eternity, divinity, and the concept of infinite. There will be events, workshops and competitions to help participants learn, grow, learn about culture and have fun.

You won't want to miss out on this incredible lineup of technology and culture. Join us now for an unforgettable extravaganza!

"Clear your schedule and prepare yourself for a one-of-a-kind adventure!"
